WORK EXPERIENCE

Edenred, Dubai, United Arab Emirates
Senior Software Engineer
SEPTEMBER 2024 - PRESENT

- Engaged in domain-driven design practices, actively participating in defining bounded contexts to align software architecture with business domains.
- Conducted in-depth analysis of existing product features to identify areas for improvement and ensure seamless integration within the revamped solution.
- Led the research and design of a software solution to modernize a key product using a micro frontend architecture.

gtlogic, Beirut, Lebanon
Senior Software Engineer
OCTOBER 2023 - AUGUST 2024

- Engaged in frequent client interactions to understand requirements, address concerns, and provide solutions.
- Effectively delegated tasks among team members, overseeing project timelines and ensuring successful project delivery on time.

Intermediate Software Engineer
JANUARY 2022 - SEPTEMBER 2023

- Designed and implemented solutions to upgrade and integrate existing APIs with MuleSoft.
- Automated front-end workflows, by reading files from an FTP server and bulk creating records with a MuleSoft application.
- Developed features for a developer's API portal using React and Next.js, helping clients achieve an API-as-a-product.
- Revamped an existing REST API using AWS CDK and GraphQL.
- Created automated flows, to improve the Service Team's Salesforce experience.
- Trained junior team members and reviewed their work.

Junior Software Engineer
DECEMBER 2019 - DECEMBER 2021

- Developed UI features of an Ember.js web application.
- Automated the process of transforming tests to a newer format using a jscodeshift codemod, saving development time and effort.

Mirum, Beirut, Lebanon — *Web Development Intern*
AUGUST 2019 - OCTOBER 2019

- Collaborated with the Content Management team on populating Visa.Inc websites.

FOO, Beirut, Lebanon — *Web Development Intern*
JUNE 2018 - JULY 2018

- Learned and implemented web development basics (HTML, CSS, JavaScript) and database integration using PHP.
